Yazhuo Liu
lab 16

view – view navigation – camera fly mode (shift + F)

view – align view – center view to cursor (C)

object – transform – grab/move on axis – Y global (G, Y)

object – transform – scale on axis – X global (S, X)

Report:
    I ran into some trouble importing the file at first, but I figured it out eventually. I have successfully completed this lab.
